J L EDWARDS CANVAS ART

To commemorate the 50th Anniversary year and all of the wonderful students, past and present, who have been granted funds for experiences and other educational enhancements, five canvas art works have been created that now hang in the concourse area near Restaurant 1850.

The canvas banners display oak tree word clouds that show all of the names of students who participated within the trust. The oak tree reference shows a strong link with our Olympian traditions, mirroring the five Coubertin Oaks, planted in 2012.
